Dear HR Manager,

I am writing to express my interest in the Web Developer position at Sourcemax Asia Co., Ltd, as recommended by the ERO team at Passerelles Numériques Cambodia (PNC). With hands-on experience in both front-end and back-end development—especially using Laravel PHP—I am confident in my ability to contribute effectively to your team.

During my training at PNC, I participated in real-world web projects that strengthened my skills in coding, problem-solving, and collaboration. I developed responsive, user-friendly web applications and collaborated with team members to deliver high-quality solutions efficiently. I took on the role of Scrum Master in several real-world web projects. I was responsible for facilitating Agile ceremonies such as daily stand-ups, sprint planning, reviews, and retrospectives. I worked closely with cross-functional teams to remove blockers, improve team productivity, and ensure timely delivery of project goals. I promoted continuous improvement and fostered a collaborative team environment aligned with Agile principles. With a strong foundation in team leadership and project coordination, I am confident in my ability to help your company grow by improving workflow efficiency, enhancing team communication, and ensuring high-quality project outcomes.

Key skills and tools I bring include:

- **Front-End:** HTML, CSS, JavaScript, and Vue.js for building dynamic and interactive interfaces
- **Back-End:** Laravel PHP and API integration
- **DevOps & Hosting:** AWS EC2 and MobaXterm for server setup and management
- **Version Control & Team Tools:** Git, GitHub, and Jira for collaboration and task tracking
- **Agile Project Management:** Familiar with Scrum methodology using Jira, including sprint planning, task management, and team coordination
- **Data Analysis:** Basic skills in Power BI for building dashboards and visualizing data to support decision-making

I am a fast learner, passionate about writing clean, maintainable code, and excited to grow within a professional development team. Thank you for considering my application. I am available for an interview at your convenience and can be reached at +855 93 967 654 or [chandy.neat@student.passerellesnumeriques.org](mailto:chandy.neat@student.passerellesnumeriques.org).

Sincerely,

Chandy Neat

### PERSONAL DATA

**Full Name:** Chandy Neat

**Sex:** Male

**Date of Birth:** 28 November 2005

**Place of Birth:** Kompong Cham

**Nationality:** Khmer

**Status:** Single

### LANGUAGE

Khmer (Mother Tongue)

English (Intermediate)

### EDUCATION

#### Passerelles Numeriques Cambodia

Associate Degree as Web Developer at PNC

Date: 2024 - Present

#### Leadership and Personal Development (YRDP)

Certificate Awarded: Leadership and Personal Development

Duration: October to November 2024

#### Dey Dos High School

12th Grade Certificate

Date: 6 November, 2023

### SCHOOL PROJECT

March 10<sup>th</sup>, 2025 - April 2<sup>nd</sup>, 2025

Role: UX Researcher & Tool Specialist

#### Brochure Design Project

- Collaborated with a team of 5 members to design a user-focused brochure.
- Conducted user research to identify preferences and ensure design relevance.
- Guided the team in effectively using Figma tools for optimal workflow and design quality.
- Contributed to layout planning, color scheme selection, and typography choices.

October 21<sup>st</sup>, 2024 - November 5<sup>th</sup>, 2024

Role: Code Quality Reviewer

#### Music Website Project

- Checked HTML, CSS, SASS, and code to make sure it was clean and easy to read.
- Made sure the team followed the same coding rules and style.
- Found bugs and problems in the code shared on GitHub.
- Gave ideas to make the code faster, easier to understand, and better to maintain.
- Worked with teammates to fix coding issues and avoid conflicts.
- Made sure the code worked well on different screen sizes and browsers.
- Wrote feedback to help the team learn and improve.

## HARD SKILLS

- HTML & CSS & SASS
- JavaScript
- Algorithm(Python)
- OOP (TypeScript)
- Database (MySQL)
- Node JS (Concept API)
- MVC(PHP)
- Laravel
- Vue JS
- Wordpress
- Figma
- GitHub
- Power BI (Basic Data Analytic)
- Jira (Srum master)
- Canva
- Cloud Hosting (AWS free trail account)

## SOFT SKILLS

- Communication
- Problem Solving
- Teamwork
- Time & Task Management
- Leadership
- Researching
- Critical Thinking
- Presentation skill
- Adaptability

## INTEREST

- Volunteering
- Hackathons or coding competitions
- Reading tech articles or books
- Learning new programming languages
- Build personal project
- Join workshop
- Share Knowledge

## WORKSHOPS

● **January 18 & 25, 2025**

**Facilitator:** Felix Leuker (Senior Digital Project Manager)

**Product Owner Workshops**

● November 18<sup>th</sup>, 2024 – November 28<sup>th</sup>, 2024

Role: Developer

### Face Detection Project

- Built the back-end system using face recognition and OpenCV to detect faces in real-time.
- Designed the logic to track attendance automatically through webcam input.
- Connected the system with Excel files to store attendance data using Pandas and OpenPyXL.
- Added voice feedback with pyttsx3 to confirm when attendance is marked.
- Helped create a clean and simple interface using Tkinter and CustomTkinter.
- Integrated all components so the GUI, face detection, and data storage worked together.
- Tested the system with different faces to check accuracy and reliability.
- Used GitHub to manage code versions and collaborate with teammates.

● December 23<sup>rd</sup>, 2024–December 30<sup>th</sup>, 2024

Role: DevOps & Junior Wordpress

### WordPress Software Deployment Project

- Deployed and hosted a WordPress website on an AWS cloud server running Ubuntu.
- Set up the server environment and managed configurations using MobaXterm.
- Installed required packages such as Apache, PHP, and MySQL for WordPress setup.
- Ensured the website was accessible online through proper DNS and server settings.
- Practiced cloud deployment and learned how to manage remote servers.
- Improved skills in Linux command-line tools and cloud-based web hosting.

● January 14<sup>th</sup>, 2025 – January 29<sup>th</sup>, 2024

Role: Project Leader & Developer

### Whether App Project

- Led a small team to build a weather application using JavaScript and real-time API data.
- Integrated a weather API to display live temperature, location, and conditions.
- Stored user preferences like location and unit settings using Local Storage.
- Designed a responsive and user-friendly interface styled with SASS.
- Used GitHub for version control and team collaboration throughout the project.
- Coordinated task assignments and ensured smooth team communication.

● March 10<sup>th</sup>, 2025 – April 2<sup>nd</sup>, 2025

Role: Scrum Master & Developer

### Inventory Management System Project (Virtual Company 1)

- Led a team of five as Scrum Master to build an Inventory Management System.
- Contributed as a developer using PHP with MVC architecture for back-end development.

- Learned about the Product Owner role, including key responsibilities, tasks, and impact on projects during Session 1.
- Practiced gathering requirements and writing clear user stories in Session 2.
- Gained hands-on experience using Jira to manage product backlogs and track tasks.
- Improved understanding of how Product Owners contribute to successful agile development.

## ● February 7 & March 14, 2025

**Facilitator:** PJ (UX/UI Designer, Sourcemax Asia Co., Ltd)

### UX/UI Design Workshops

- Translated project requirements into prototypes, wireframes, and mockups during Session 1.
- Applied UI/UX design principles through hands-on practice in a mini project during Session 2.
- Gained practical experience in turning ideas into visual layouts using design tools.
- Improved understanding of user-centered design and interface planning.

## ● March 19, 2025

**Facilitators:** Felix Leuker & Solution BI Staff

### Data Analytics Workshop

- Attended a training focused on data preparation and visualization using Python and Power BI.
- Learned how to clean and transform raw data into meaningful insights.
- Practiced creating visual dashboards to represent key data trends.
- Gained hands-on experience in using data tools to support decision-making.

## ● February 8, 2025

**Facilitator:** Felix Leuker (Senior Digital Project Manager)

### Data Analytics Workshop

- Attended a session focused on Scrum roles including Product Owner, Scrum Master, and Development Team.
- Learned how team members collaborate effectively using tools like Jira, Git, and GitHub.
- Explored key agile concepts such as user stories, sprint planning, and workflows.
- Gained a better understanding of how agile teams manage tasks and deliver value.

- Designed and implemented features to track materials, suppliers, and stock levels.
- Managed agile planning and task tracking using Jira.
- Integrated MySQL database to store and manage inventory data.
- Supported front-end development to ensure a responsive and user-friendly interface.
- Facilitated daily stand-ups and sprint planning to keep the team on track.
- Ensured smooth collaboration and delivery through effective communication and GitHub version control.
